

"I would recommend IBA Aggregate without a doubt. It makes both economic and practical sense to use it."

Paul England, Managing Director
England Civils Ltd

St Johns Place, Hedge End

CUSTOMER: ENGLAND CIVILS LTD

4,200 Tonnes

The Contract

England Civils Ltd are working for Foreman Homes at St Johns Place, a new landmark development of stylish 3, 4 and 5 bedroom family homes in St John's Road, Hedge End, conveniently situated close to Hedge End Village. England Civils were looking for a readily available aggregate to be supplied within a short timescale.

Material Specification and Application

HCC Blend Type1

Reason for using IBA Aggregate

"More readily available so quicker supply enabled us to push ahead of the site programme."

Client Benefits

- Economically more viable with cost savings versus primary aggregates.
- Environmentally friendly.
- Readily available - quick supply delivered in FORS accredited vehicles by experienced drivers.
- Produced in Hampshire.
- Dedicated sales representative throughout.
- Full site suitability assessment and material trial.
